Using Canva to repeat your title seamlessly

1. **Create a new design**
   Create a design
   Click
   (Top right)

   Type A4, and press enter.

   We have found an A4 page of a repeated print gives you a good idea of how your print will look on fabric.

2. **Save your work** - give the project a title
   Eg Repeated-print-fabric-sample-to-scale

3. **Upload your fabric tile**

   **Uploads**
   Click

   Click

   Upload media ...

   Select your fabric tile that you have previously created.
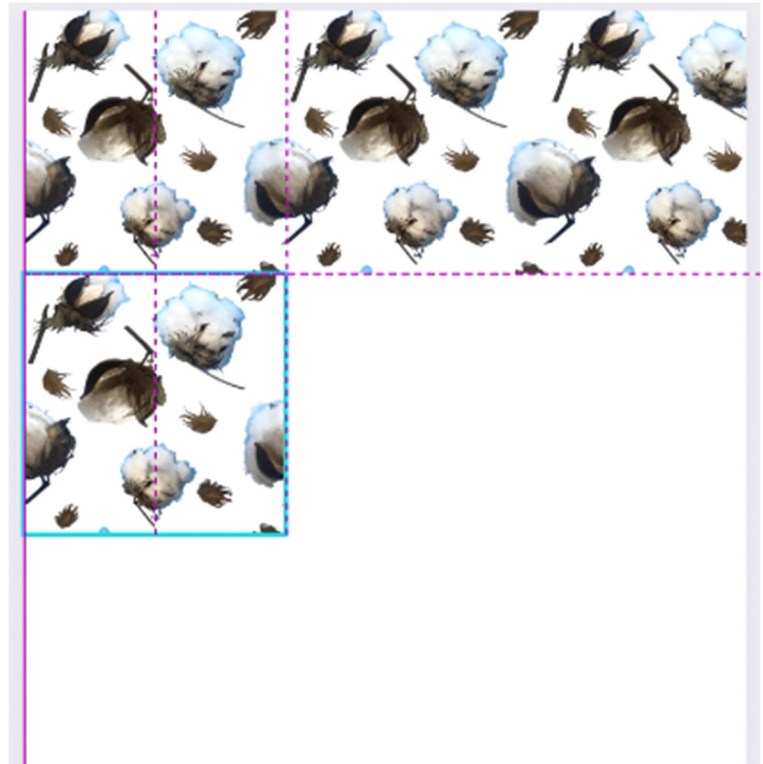

4. **Resize as desired.**
   Think like a designer. Remember your canvas is A4 size- how big do you want your print? Think about how it will look on the body as a fabric. Would it look better larger or smaller?

   Duplicate

5. **Duplicate the tile.**

   As you duplicate the tile, click and drag so that the edges perfectly meet the last.
   Canva will automatically display grid lines when you move the object into perfect alignment.

6. **Continue until the whole canvas is full.**

7. **Download your work.**
